

CMPS 115 Sprint #4 Report

Product Name: Pet Clump

Team Name: Clumpers

Date: June 4th, 2018

Revision: 1.0

Actions to Stop doing:

N/A

Actions to start doing:

1. Start having more group coding sections as we are approaching the release day and the acceptance test as well.

Actions to keep doing:

1. The team should schedule more of the group coding section so that the team will catch up with the sprint plan and that also makes the work more efficient.
2. The team should make a more accurate estimation of the work tasks, since the sprint tasks are not finished smooth as we thought, and team have to work together on the last day of the sprint in order to complete the tasks.
3. To work remotely when it's not convenient to make it to the coding section on Sunday.

Work Completed:

List of user stories that are completed for sprint #2:

1. 15pts - As a user, I want to have an easy to use interface that are creative, gorgeous, and functional.
 - Have a tab view controller for the match page so that it will include the friend list tab.
 - iOS show owner's profile when click profile photo on the first listing view
 - navigation bar that goes to previous view
 - Same color scheme/ font
 - Login page automatically take you to selecting a pet to start matching or setting a new owner profile.
 - Notify the user that information we are going to collect, on the profile setting page
 - Delete photo when upload a new one
 - Default photo for no photo
 - Enforce user enter all the information in the setting page
 - Make sure the the number of characters are tracked
 - Add a pet picture in the start matching view
 - Notify user to save if they click on exit
 - iOS add slide from left to dismiss view
 - iOS center cut for uploading photo
 - Logout button in the setting page
2. 10pts - As a user, I want the app to adapt location to the matching system

- Show distance in the matching card
- Rank the matching by distance. 30% weight of the matching %
- Unify the location preference bar between iOS and Android
- Don't show profiles that are more than the preference

Total: 25 story points
